Informatics Engineering student at Universitas Padjadjaran with a focus on web application development and artificial intelligence. Experienced in developing educational chatbots, computer vision systems, and React-based user interfaces. Passionate about building interactive technologies to enhance user experience.

EDUCATION

PADJADJARAN UNIVERSITY
Computer Science

Jatinangor, West Java
August 2023-Present
(GPA : 3.82 / 4.00)

EXPERIENCE

LAB ASSISTANT IN DIGITAL BUSINESS UNPAD
UI/UX

Jatinangor, West Java
March 2026 - Present

- Spearheaded coaching for 30+ students, mentoring them through the end-to-end UX process, from wireframing to interactive high-fidelity prototyping in Figma, to transform business ideas into user-ready digital products.
- Facilitated hands-on workshops and final project reviews, emphasizing User-Centered Design (UCD) and usability testing to ensure student projects met industry standards for both aesthetics and business viability.

LAB ASSISTANT IN COMPUTER SCIENCE UNPAD

Data Structures, Programming Algorithm, Database System, Analysis of Algorithm

Jatinangor, West Java
February 2025 - Present

- Mentored 30+ students per semester in mastering core CS concepts, including Data Structures, Algorithms, and Database Systems.
- Facilitated hands-on labs for Programming Algorithms, guiding students through complex C++ implementations such as pointers, file I/O, and structured program design.
- Improved student technical proficiency by conducting code reviews and debugging sessions for various data structure operations and SQL query optimizations (Joins, Aggregation).
- Evaluated algorithm efficiency by teaching Big-O notation, time/space complexity analysis, and performance comparison of sorting/searching methods.

PUSAT INOVASI PENGAJARAN DAN PEMBELAJARAN UNPAD
Internship - Front End Developer

Jatinangor, West Java
August 2025 - December 2025

- Engineered an interactive AI powered learning chatbot interface using React and Three.js, enabling real-time 3D avatar rendering via WebGL
- Implemented dynamic avatar state transitions (idle, listening, thinking, speaking) synchronized with AI generated responses
- Integrated ElevenLabs Text-to-Speech API with browser fallback to deliver seamless multimodal interaction (text and voice)

PROJECTS

- **Urunin:** OCR-powered split-bill and debt management web app.
- **Addicx:** Addiction recovery platform prototype with progress tracking.
- **Grammate:** LLM-based English grammar checker with real-time feedback.
- **TutorAI:** Interactive 3D AI tutor with speech-to-speech capabilities.
- **Zichara:** Mobile AR app for interactive Hanzi and Pinyin learning.
- **Seluna:** Women's safety app prototype with real-time SOS alerts.

SKILLS

- **Programming Languages:** C++, Python, Java, C#, JavaScript, HTML, CSS.
- **Frameworks & Tools:** React.js, Next.js, Flask, Git, VS Code, Figma.
- **Soft Skills:** Communication, Team Collaboration, Time Management.
